

NADAF MO ATIKH SHADULLA

9404641505 | atiqnadafonline@gmail.com | Latur, Maharashtra

PROFESSIONAL SUMMARY

Fresh BCA graduate with hands-on experience in software and web application development. Strong foundation in Python, Object-Oriented Programming (OOP), MySQL, HTML, CSS, and PHP. Experienced in designing databases, developing backend logic, and building complete applications from concept to deployment. Proficient in problem solving, debugging, version control fundamentals, and writing clean, maintainable code. Eager to contribute to software engineering teams and grow within application development and modern software solutions.

TECHNICAL SKILLS

Programming Languages: Python

Web Technologies: HTML5, CSS3

Database: MySQL, Relational Database Design, SQL Queries, Joins, CRUD Operations

Version Control: Git, GitHub

Software Development: Object-Oriented Programming (OOP), Debugging, Code Maintenance

Tools: VS Code, GitHub

Soft Skills: Problem Solving, Team Collaboration, Adaptability, Quick Learning, Communication

PROJECT

Jewellery Shop Management System

Technologies: PHP | MySQL | HTML | CSS | GitHub

- Designed and developed a complete inventory and customer management application independently.
- Created and optimized relational database schemas in MySQL with multiple entity relationships.
- Implemented CRUD operations and backend business logic for inventory, billing, and customer management.
- Applied Object-Oriented Programming concepts and modular development practices during application design.
- Performed debugging and testing to ensure application reliability and data consistency.
- Managed source code using GitHub for version tracking and project maintenance.
- Gathered requirements and translated them into technical implementation.

EDUCATION

Bachelor of Computer Applications (BCA) | 2023 - 2026

Swami Ramanand Teerth Marathwada University (SRTMU), Nanded, Maharashtra

Relevant Coursework: Python Programming, Object-Oriented Programming, Database Management Systems, Software Engineering, Data Structures, Computer Networks.

ADDITIONAL INFORMATION

- Strong understanding of Python programming fundamentals and Object-Oriented Programming concepts.
- Familiar with Git-based version control workflows.
- Knowledge of software debugging and troubleshooting techniques.
- Passionate about software engineering, problem-solving, and continuous learning.
- Comfortable working in agile and collaborative development environments.
